# US Army Corps of Engineers Louisville District

**US Army Corps  
of Engineers**  
Louisville District

Deliver solutions and manage resources supporting regional and national requirements through an expert team of multidisciplinary professionals utilizing best engineering practices and strategic partnerships to reduce disaster risk, strengthen the economy and support national security.

## **Where Kentucky can help increase your organization's readiness**

Continue partnerships on Civil Works, Emergency Response, and Environmental Missions.

Continued communication on Military Construction projects.

## **How Kentucky can help your personnel and their families**

Reciprocity for professional certifications/licenses for civilian spouses of military members

## **Projected personnel and or mission changes**

The Louisville District is comprised of 1132 DA civilians and 13 active duty military.

Our DA Civilians personnel count continues to grow as our missions continue to evolve.

## **Anything else you would like to share**

Louisville District executed over \$1.4B in contracts last year

Louisville District Flood Risk Management Projects have prevented over \$1B in damages since their inception

USACE Recreation facilities in KY provide over \$500M each year in economic benefits
